

SUMMER PANDEY

+1 309-631-4748 | summerpandey23@augustana.edu | [GitHub](#) | [LinkedIn](#)

EDUCATION

Augustana College, Rock Island, IL

Expected: 05/2027

B.A. in Computer Science and Data Science; Minor in Mathematics

- **Coursework:** Data Structures, Algorithms, Software Engineering, Operating Systems, Machine Learning, Statistical Learning, Linear Algebra, Discrete Mathematics, and Probability and Statistics

TECHNICAL SKILLS

- **Languages:** Python, Java, C, JavaScript, TypeScript, Dart, SQL, R, HTML/CSS
- **Frameworks & Backend:** React, Flutter, Node.js, Express.js, Firebase, Supabase, MongoDB, REST APIs
- **AI/ML & Data:** PyTorch, TensorFlow, scikit-learn, Hugging Face Transformers, pandas, NumPy, Matplotlib
- **Development & Testing:** Linux/Unix, Git/GitHub, Docker, JUnit, Mockito, debugging, unit testing

WORK EXPERIENCE

NVIDIA AI & Machine Learning Instructor

Stanford, CA

iD Tech at Stanford University

06/2026 – 08/2026

- Led AI and machine learning instruction for **50+ students** using NVIDIA Jetson Orin Nano devices, teaching Python, Linux, computer vision, debugging, and model deployment
- Guided students through dataset preparation, model training, testing, optimization, and edge deployment across **5+ real-world application areas**
- Taught and deployed computer vision pipelines using image classification, **DetectNet, SegNet, and PoseNet**, helping students build and evaluate custom models

Software Engineering Intern

Colorado, USA

Sports Media Inc.

06/2025 – 08/2025

- Built and deployed an AI voice platform using the **Twilio Voice API** and REST APIs, processing more than **1,000 calls per week**
- Improved call completion by **25%** by redesigning conversation workflows and automating routine call-processing tasks
- Reduced system failures by **15%** through error handling, production monitoring, debugging, testing, and code reviews

PROJECTS AND HACKATHONS

VentureGain | React, TypeScript, Supabase, Groq, Vercel

- Designed and deployed a full-stack health-tracking application used by **20+ users**, combining workouts, nutrition, sleep, energy, and hydration in one dashboard
- Engineered photo, voice, and text-processing workflows that transform unstructured user input into structured workout and nutrition records stored in Supabase

Crypto Market Sentiment Analyzer | Python, RoBERTa, VADER

- Developed a Python data pipeline that collected and analyzed cryptocurrency news and social-media sentiment using **RoBERTa** and VADER
- Evaluated model predictions against labeled data, achieving **72% accuracy**, and analyzed relationships between sentiment scores and market signals

Preventia | Flutter, Firebase, Gemini AI

- Won **Best Use of Gemini AI** at **HackAugie** by building a preventive-health application that generated personalized checklists from demographic and regional risk factors
- Developed the cross-platform application with **Flutter and Firebase**, implementing authentication, real-time data storage, gamified tracking, and AI-assisted personalization

LEADERSHIP & ACTIVITIES

Community Advisor, Augustana College

08/2024 – Present

- Mentored **200+ students** and organized inclusive programs that increased community engagement by **25%**

Google Developer Group Co-Lead, Augustana College

05/2024 – Present

- Led technical workshops, hackathons, and collaborative programming events for the campus developer community
